## *Greetings . . . . .*

In sincere appreciation of past favors and courtesies and mindful of the rich inheritance of freedom that we enjoy in our American way of life, we wish to thank our many customers and friends for their fine letters and deeply appreciate the orders received in the past season.

We are going to suggest a few do's for your gladioli garden.

After your soil has been prepared in the Spring of the year, furrow out your rows and scatter in the bottom of the trench a handful of Commercial Fertilizer. One handful for about four feet, and mix well with the soil setting the large bulbs about five inches deep and five inches apart. Other size bulbs in proportion with the smallest about two inches in depth.

Be sure and dip your Gadiolus in a good disinfectant so as to kill any eggs or thrip that may be on the bulb. Do this regardless where you buy your bulbs. We use Lysol. Four teaspoons full to one gallon of water and immerse bulbs for six hours. Any water container will do. Can be done at any time before planting or just at planting. It is well to begin spraying the plants when they are six or eight inches tall, every ten days until they bloom, with Tartar Emetic, one gallon of water, one tablespoon full

of Tartar Emetic, four tablespoons of brown sugar.

In the fall about the best time to pull up your bulbs would be after the first killing frost or just before the leaves start dying off. Cut the leaves right close to the bulbs, placing the bulbs in shallow boxes to dry. At the end of two or three weeks remove the old bulbs and store your new bulbs in a dry, cool place. A vegetable cellar is a dry, cool place.

Terms: Cash with order or twenty-five per cent, the rest C. O. D. No order accepted for less than one dollar. No item for less than ten cents, please. Five percent discount on orders from \$3 to \$5. Ten percent on orders from \$5 to \$10. We are very liberal in our over counts.

All retail orders will be sent prepaid. If out of size wanted we will ship next size giving equal or better value. Send your orders in early and we will ship when wanted.

We try to, and observe the fact, that making new friends, and new customers, is very essential to our business,

Sincerely yours,

Taylor Gardens
